

**Laboratory regulations regarding safety rules during
the SARS-CoV-2 pandemic**

1. Only a healthy person who has no symptoms suggesting an infectious disease may stay in the laboratory. Persons who stay at home with a person who is in quarantine or home isolation, and persons who are in quarantine or home isolation cannot participate in classes.
2. Students are not allowed to enter the laboratory in the absence of a teacher.
3. A distance of 2 metres between persons should be kept when entering/leaving the laboratory.
4. The outerwear should be left in the cloakroom.
5. The use of cell phones is not allowed in the laboratory.
6. It is obligatory to disinfect hands before classes.
7. Only a person with a mouth and nose cover may stay in the laboratory (a face mask or a face shield for people who cannot cover their mouth and nose with the face mask for health reasons).
8. The safe distance of 2 metres between persons should be kept in the laboratory.
9. If possible, each person should use their own tools/utensils (i.e. a pen, notebook). It is forbidden to borrow other participants' tools.
10. It is forbidden to eat during classes.
11. After classes, hands should be disinfected with a disinfectant.
12. The laboratory should be ventilated regularly, at least once an hour. If possible, it is recommended to conduct classes with open windows.
13. The door to the laboratory and all rooms used by students should be open.
14. Door handles, handles, seats, laboratory equipment and frequently touched surfaces should be disinfected regularly.
15. Disinfection is carried out strictly in accordance with the recommendations of the manufacturer of the disinfectant and disinfection equipment.
